

Online Account Guidelines

As per the Department of Agriculture, a valid Animal Health Certificate is required for each Lot being sold at auction. This document must be completed by your Veterinary Practitioner within 15 days of their relevant Sale and **MUST** be uploaded via your online account **PRIOR** to arrival at the Sales Complex.

Once logged in to your Tattersalls Ireland Account, select **MY LOTS** from the five tabs across the top taskbar. This will bring you into your **Lot Documentation** screen. From here you can see what documentation is required for each of your lots. To upload a document, click the relevant + icon and start upload, as seen in the images below.

Note: Uploaded files should ideally be single-page pdfs, but jpegs can be uploaded too.
